# i-Reporter

**Paperless Solution for Reporting  
Quickly and Accurately**

[www.id.dentsusoken.com/ireporter](http://www.id.dentsusoken.com/ireporter)

**i-Reporter** is an application or system that allows users to record, report, and browse information directly using devices such as iPad, iPhone, and Windows tablets, without using paper.

## YOUR PAPERLESS SOLUTION FOR INSTANT REPORTING AND RECORD-KEEPING

### BEFORE

### AFTER

No need to print out paper, work instructions can be automatically preset into the form in advance. In addition, once the work and forms have been recorded, you just apply for approval to complete the work.

**This eliminates report writing and duplicate entry.**

**I-REPORTER, PAPERLESS SOLUTION FOR REPORTING QUICKLY AND ACCURATELY**

## MAIN FEATURES I-REPORTER

### Your paper forms and Excel forms convert to digital forms with no programming or retraining

The forms your employees know work exactly the same, no need to spend endless hours retraining. Forms work intuitively and capture data accurately. No need to spend hours retraining how to use the digital form.

### Reduce input errors and capture various kinds of data.

i-Reporter allows you to set ranges for data input, set required data fields, embed photos from the iPhone/iPads camera, read barcodes or QR Codes, plus many more. Make sure the data entered into forms is accurate and all essential data is captured.

### i-Reporter is feature-rich and puts everything someone on-site or production floor in one app.

Users can reference manuals, take photos, check schedules, and their data is accessible in real-time. i-Reporter can also be customized for any industry, or workflow, to make sure on-site users collect data quickly and accurately.

### Easily link with external systems and databases with an API.

Data from forms can be sent to external systems and also used to populate on-site or production floor forms. i-Reporter automates data tabulation, reporting, and analytics when forms are submitted to the server. This saves time by eliminating manual report compilation.
